About me

Front-end developer with 9 years of experience in various web studios and as a freelancer, developed websites of any complexity and volume.

An expert in web page development and adaptive design, my clients always received high-quality work with an individual design.

Participated in training designers in the basics of HTML and CSS for better teamwork, more accurate and responsive design with good optimization.

Hardworking and have experience working both in a team and alone directly with the client, being as honest and open as possible to my customers. I look forward to the opportunity to apply my skills and experience in your company.
